## Summary

---

Application developer and computer science student with co-op experience building internal tools, automation workflows, and reporting dashboards for government teams — including the Department of National Defence. Comfortable taking unclear requirements and delivering something teams can depend on. Graduating April 2026.

## Experience

---

### **Application Developer (Co-op)** — Department of National Defence (DND), Hybrid *Feb 2025 – Dec 2025*

- Built and deployed a Power Apps initiative-tracking system used by multiple teams, replacing fragmented workflows across Word, Excel, and personal notes.
- Designed the SharePoint List structure to support initiative lifecycle tracking, team roles, and evolving requirements.
- Automated team coordination with Power Automate (assignment notifications, channel creation, status sync), reducing manual overhead and missed updates.
- Integrated Power Apps with Azure DevOps to automatically sync sprint and iteration data, eliminating manual status updates.
- Demoed features weekly in Scrum ceremonies and translated stakeholder feedback into sprint deliverables.

### **Software Tester (Co-op)** — Algonquin College, Remote *Sep 2024 – Dec 2024*

- Contributed to multiple releases of a large student information system within an Agile team.
- Logged defects with clear reproduction steps in Azure DevOps to speed triage and resolution.
- Identified role-based access and cross-device issues through exploratory testing.

### **Application Developer (Co-op)** — FINTRAC, Hybrid *Jan 2024 – Apr 2024*

- Developed a Java tool to compare live API responses against internal documentation and flag discrepancies.
- Integrated with internal REST APIs to retrieve and parse live response data for field-level comparison.
- Designed a config-driven system so endpoints and fields could be updated without code changes.
- Added support for notes and overrides to persist intentional exceptions across runs.
- Delivered the project independently — no existing codebase, limited guidance, first co-op placement.

## Skills

---

**Power Platform:** Power Apps, Power Automate, Power BI, SharePoint Lists

**Backend:** Java, Maven, REST APIs, Git, Linux (Ubuntu / WSL)

**Enterprise Tools:** Microsoft 365 (Teams, SharePoint), Azure DevOps, Agile / Scrum

## Education

---

### **Advanced Diploma, Computer Engineering Technology – Computer Science** *Jan 2023 – Apr 2026* **Algonquin College** *Ottawa, ON*

- GPA: 3.79 / 4.0
- Dean's Honours List (all terms)
